Kinda Alkhityar

FRONTEND DEVELOPER | REACT | INTERACTIVE WEB & 3D

PROFESSIONAL PROFILE

Frontend developer with 1 year of hands-on web project experience, creating responsive, multilingual and interactive websites. Skilled in HTML, CSS, JavaScript, React and Python, with experience integrating 360° virtual tours and 3D web elements. Focused on intuitive interfaces and polished, functional web experiences.

KEY STRENGTHS

- Responsive and multilingual website development
- Interactive React interfaces and user-focused layouts
- 360° virtual property tours and 3D web experiences
- Translating visual concepts into functional web pages
- Problem-solving, testing and interface refinement

SELECTED PROJECTS

AQARATI SYRIA

Multilingual Real Estate Platform · 360° Tours

Developed a real estate platform in four languages with immersive 360° interior tours, responsive property listings and intuitive navigation.

TAANIQI WITH IMAN

Fashion Catalog · React

Created a mobile-friendly Arabic fashion catalog featuring product browsing and a WhatsApp-based ordering flow.

PERSONAL DEVELOPER PORTFOLIO

Interactive Portfolio · 3D

Built an interactive portfolio featuring responsive layouts, 3D visual elements and project showcases. kinda-portfolio.vercel.app

YUMNA PORTFOLIO

Creative Portfolio Website

Developed a separate portfolio website to present creative work through a clean, responsive interface.

ADDITIONAL PROJECTS

Further web development and interface projects available to showcase on request.
